The condensed consolidated financial statements have been approved by Board of Directors and authorized on the date of November 3, 2026 for publishing. General Assembly has the authority to amend / modify condensed consolidated financial statements.

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of the Presentation

The Group has prepared its condensed consolidated financial statements for the interim period ending on September 30 2026, in accordance with TMS 34 "Interim Financial Reporting" standard, within the framework of the Capital Markets Board's ("CMB") Communiqué Serial: II, 14.1 and the announcements explaining this communiqué.

The accompanying financial statements have been prepared in accordance with the provisions of the CMB's Communiqué Series II, No. 14.1 on the "Principles Regarding Financial Reporting in the Capital Markets" published in the Official Gazette dated 13 June 2013 and numbered 28676. Based on the Turkish Accounting Standards / Turkish Financial Reporting Standards ("TMS/TFRS"), which were put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA"), and their annexes and comments. Interim condensed consolidated financial statements are presented in accordance with the formats specified in the "Announcement on TFRS Taxonomy" published by the POA on October 4, 2022 and the Financial Statement Examples and User Guide published by the CMB.

The Company complies with the principles and conditions issued by the Capital Markets Board (CMB), the Turkish Commercial Code ("TCC"), tax legislation, and the Uniform Accounting Plan conditions issued by the Ministry of Treasury and Finance in maintaining its accounting records and preparing its statutory financial statements. Affiliated companies operating in foreign countries have prepared their statutory financial statements in accordance with the laws and regulations applicable in the countries in which they operate. The consolidated financial statements have been prepared on a historical cost basis, except for derivative instruments, which are stated at fair value. As the Group uses the US Dollar as its functional currency, IAS 29 (Financial Reporting in Hyperinflationary Economies) has not been applied in the preparation of the financial statements. Application of Tax Code 298/C As of 2025, the inflation adjustment to be applied under the Tax Law has been postponed for the 2025, 2026, and 2027 accounting periods by Law No. 7571. In this context, the Company has performed its controls regarding revaluation for depreciable assets in accordance with Tax Code 298/C for the relevant period; however, it has not applied it as it has no significant effect on the TFRS financial statements. Explanations regarding the currency used are provided in Note 2.2.

The condensed consolidated interim financial statements of the Group do not include all of the disclosures and footnotes required in the year-end financial statements and therefore the condensed consolidated interim financial statements of the Group should be read in conjunction with the financial statements as at December 31, 2025.

2.2 Functional Currency

The financial statements of each enterprise of the Group are presented in the currency (functional currency) valid in the basic economic environment in which they operate. The company mainly uses USD in its operations (trading). The US dollar also reflects the economic basis of situations and events that are important to the Company. The Company's purchase and sales prices are largely based on US Dollars. The Company, by evaluating the economic environment and its activities, has determined the functional currency as USD in accordance with TAS 21 (Effects of Changes in Exchange Rates). Although the functional currency of the Group is US Dollars, the presentation currency is expressed in Turkish Lira ("TL" or "TRY").

If the legal records are kept in a currency other than the functional currency, the financial statements are first converted to the functional currency and then back to TL, which is the Group's presentation currency. For companies in Türkiye, the functional currency of the statutory records is TL. Conversion of TL into US Dollars is based on the framework described below;

- Monetary assets and liabilities accounts, T.C. The Central Bank ("CBRT") is converted to the functional currency with the foreign exchange buying rate.
- Non-monetary items are converted into functional currency with the CBRT buying rates valid on the date of the transaction.
- Income statement accounts have been converted to the functional currency using the exchange rates on the transaction date, excluding depreciation charges..
- Capital has been tracked according to historical costs.

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.2 Functional Currency (cont'd)

The translation differences resulting from the above conversions are recorded in the profit or loss statement, in the foreign exchange income / expense accounts included in the financial income and expenses item.

The exchange rates and methods used in converting from functional currency to presentation currency are listed below:

Items in the condensed consolidated statement of financial position are translated into Turkish Lira with the exchange rates announced by the Central Bank of the Republic of Türkiye ("CBRT"). Equity items are shown with their historical values. Income and expenses and cash flows are translated at the annual average exchange rate for the relavant period. Translation gain/loss arising from this conversion has been included in the "foreign currency translation differences" account under equity and accounted as a separate component of the other comprehensive income.

Average USD / TRY exchange rates for each period are as follows:

	30 September 2026	**31 December 2025**	**30 September 2025**	**31 December 2024**
USD / TRY – as of reporting date	48,9303	42,8457	41,5068	35,2803
USD / TRY – average for the period	45,6081	39,4761	38,5342	32,7921

The USD ("USD") amounts shown in the condensed consolidated financial statements are the financial statements prepared in accordance with the functional currency of the Group and are not part of the condensed consolidated financial statements.

2.3 Going Concern

The condensed consolidated financial statements of the Group are prepared on a going concern basis, which presumes the realization of assets and settlement of liabilities in the normal course of operations and in the foreseeable future.

2.4 Changes in Accounting Policies

Important changes on the accounting policies are accounted retrospectively and prior period's financial statements are restated. The Group did not apply any changes in its accounting policies for current period.

2.5 Changes and Errors in Accounting Estimates, Comparative Information and Restatement of Prior Period Financial Statements

The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, in the period of the change and future periods, if the change affects both. The Group does not have any important changes in the accounting estimates in the current year. Significant accounting errors are corrected retrospectively, by restating the prior period consolidated financial statements.

To enable the determination of financial status and performance trends, the Group's condensed consolidated financial statements for the current period are prepared in comparison with the previous period.

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.6 Basis of Consolidation

The details of subsidiaries are as follows:

			Proportion of ownership interest and voting power held by the Group (%)	
Name of subsidiaries	Principal activity	Place of incorporation and operation	30 September 2026	31 December 2025
Commonwealth Finance Investment Ltd.	International Trade of IT Products	British Virgin Islands	100%	100%
Penta International B.V.	International Trade of IT Products	Netherlands	100%	100%

Functional currencies of these subsidiaries are US Dollar.

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than the majority of the voting rights of an investee, it has still power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.7 Application of New and Revised Turkish Financial Reporting Standards (TFRSs)

The accounting policies adopted in preparation of the condensed consolidated financial statements as at September 30, 2026 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2026 and thereafter.

These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 has been deferred for insurance, reinsurance and pension companies for a further year and will replace TFRS 4 Insurance Contracts on 1 January 2027.

Amendments are effective with the first application of TFRS 17.

- **TFRS 18** ***Presentation and Disclosures in Financial Statements***

  TFRS 18 includes requirements for all entities applying TFRS for the presentation and disclosure of information in financial statements. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.8 Critical Accounting Judgments and Key Sources of Estimation Uncertainty

Critical judgments in applying the Group's accounting policies

In the process of applying the Group's accounting policies, the Group Management has made the following judgments that have the most significant effect on the amounts recognized in the financial statements:

Useful life of property, plant and equipment and intangible assets

The Group has calculated the depreciation and amortization amounts in accordance with TFRS. The calculations are based on the Group Management's expectations regarding the useful life of the related assets.

Duration of Leasing Liabilities

The Group's leasing liabilities within the scope of TFRS 16 are related to vehicle and building leasing contracts. The lifetime of the leasing agreements for vehicles are determined on the basis of the relevant lease agreement. The lifetime of the lease contracts for buildings are determined based on the best estimate of the period in which the management plans to use the asset in lease contracts and auto-renewal contracts.

Doubtful receivables provision

A credit risk provision for trade receivables is established if there is objective evidence that the Group will not be able to collect all amounts due. The amount of the provision is the difference between the carrying amount and the recoverable amount. The recoverable amount is the present value of all cash flows, including amounts recoverable from guarantees and collateral, discounted based on the original effective interest rate of the originated receivables at inception.

Severance benefits

Under Turkish Law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. Such payments are considered as being part of defined retirement benefit plan as per TAS 19 (Revised) *Employee Benefits* ("TAS 19"). The retirement benefit obligation recognized in the condensed consolidated statement of financial position represents the present value of the defined benefit obligation. The actuarial gains and losses are recognized in other comprehensive income.

Inventory impairment provision

When the net realizable value of inventories is less than their cost, the inventories are reduced to their net realizable value and are reflected to profit and loss as loss. According to the expectations of the Group, as the net realizable value of the inventories are below of their cost value, for some part of the inventories the Group has allocated provision and reduced to their net realizable value.

Corporate Tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group's results for the years and periods. Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

16. INCOME TAXES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (cont'd)

Corporate Tax (cont'd)

It is enacted that, with effect from the beginning of 2021 for the corporations whose shares are publicly traded on Borsa Istanbul for the first time with at least 20% of its shares are offered to public, the corporate tax rate will be applied with a 2-point discount for 5 accounting periods, starting from the accounting period in which the shares are offered to the public for the first time. As a result of this, the effective tax rate for the Group in 2026 is 25% (2025: 23%).

Furthermore, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1 - 25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

Pursuant to Law No. 7582 dated 4 June 2026, the corporate income tax rate applicable to profits earned by entities holding an industrial registry certificate and engaged in actual production activities has been reduced from 25% to 12.5%, effective from 1 January 2027. It is anticipated that this legal regulation will not have an impact on the Group's tax liabilities for subsequent years or its deferred tax calculations.

Income Withholding Tax

In addition to corporate taxes, companies should also calculate income withholding taxes and funds surcharge on any dividends distributed, except for companies receiving dividends who are Turkish residents and Turkish branches of foreign companies. Income withholding tax applied in between 24 April 2003 - 22 July 2006 is 10% and commencing from 22 July 2006, this rate has been changed to 15% upon the Council of Minister's' Resolution No: 2006/10731. In the application of the withholding rates regarding profit distributions to non-resident taxpayer institutions and real persons, the withholding rates included in the related Double Taxation Prevention Agreements are also taken into consideration. Undistributed dividends incorporated in share capital are not subject to income withholding tax.

Transfer pricing regulations

In Türkiye, the transfer pricing provisions of the Corporate Tax Law "disguised profit distribution via transfer pricing" is stated in Article 13 entitled. The communiqué dated November 18, 2007 on disguised profit distribution through transfer pricing regulates the details regarding the implementation.

If the taxpayer buys or sells goods or services at a price or price determined against the arm's length principle with related parties, the earnings are deemed to have been distributed completely or partially through transfer pricing implicitly. Disguised profit distribution through such transfer pricing is considered as an expense not legally accepted for corporate tax.

Deferred Tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for TFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for TFRS and tax purposes and they are given below.

Repeated Article 298/C of the Tax Procedure Law As of 2025, the inflation adjustment to be applied under the Tax Procedure Law has been postponed for the 2025, 2026, and 2027 accounting periods by Law No. 7571. In this context, the Company has performed its controls regarding the revaluation of depreciable assets in accordance with Tax Code 298/C for the relevant period; however, it has not implemented the application as it has no significant effect on the TFRS financial statements.

For calculation of deferred tax asset and liabilities, the rate of 25% (2025: 23%) is used.

Explanations on the credit quality of financial assets

Allowances for doubtful receivables are recognized against financial assets based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty.

The methodology of the Group for credit quality rating is as follows:

Category	**Description**	**Expected Credit Loss Calculation Method**
None ODR	There are no overdue receivables ("ODR").	Credit losses are not incurred.
ODR < 90	The overdue period is less than 90 days.	Credit losses are not incurred.
ODR >=90 & <180	The overdue period is over 90 days and less than 180 days.	25% of the total credit amount is incurred as loss.
ODR >=180 & <270	The overdue period is over 180 days and less than 270 days.	50% of the total credit amount is incurred as loss.
ODR >=270+	The overdue period is 270 days or more.	100% of the total credit amount is incurred as loss.

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. Financial instruments of the Group that will result in concentration of credit risk mainly include cash and cash equivalents and trade receivables. The Group's maximum exposure to credit risk is the same as the amounts recognized in the financial statements.
