

PRINCIPLES OF SUSTAINABILITY COMPLIANCE STATEMENT

As an industry pioneer, Türk Prysmian Kablo began its sustainability journey about 4 years ago. A Sustainability Report, marking the culmination of Türk Prysmian Kablo's four-years effort; by adhering to and following good practices in this area, including those specified in The Capital Markets Board's Sustainability Principles Compliance Framework, the company continues to work in line with its commitment to sustainability. Although Türk Prysmian Kablo has implemented a majority of the sustainability principles outlined in the Sustainability Principles Compliance Framework, it continues to work on the items that have not yet been fully implemented.

The principles included in the CMB's Sustainability Principles Compliance Framework are cited in the Sustainability Section of the Annual Report; on Türk Prysmian Kablo and Prysmian Website, as well as in the 2021-2022-2023 Sustainability Report.

- Under principle number B.9, Scope 1 and Scope 2 greenhouse gas emissions are calculated using international standards determined by Prysmian Group.

Scope 1 and Scope 2 emissions are presented in the Sustainability Report, but Scope 3 emissions are referenced in the Prysmian Group sustainability report. Currently, special studies are being conducted for Türk Prysmian Kablo.

- Under principle number B.14; Türk Prysmian Kablo has conducted a life cycle analysis of a product, but the Prysmian Group is coordinating the comprehensive study. Third-party (e.g. suppliers, subcontractors, dealers, etc.) greenhouse gas reduction efforts are managed by the Prysmian Group, while Türk Prysmian Kablo is also conducting company-specific studies.

- B.19 renewable energy production and use studies continue. Currently not available for 2023, but included in work plans for 2024.

- Under the principle numbered B.23; No internal carbon pricing studies have yet been conducted.

. There are no accumulated/purchased carbon credits.

- Under the principle numbered B.24; No internal carbon pricing studies have yet been conducted. Studies for the transition to a low-carbon economy continue under the leadership of both the Prysmian Group and the region we are affiliated with.

As part of our annual report, we have attached the Sustainability Principles Report prepared in accordance with the CMB's decision dated 23.06.2022, number 34/977, and approved by the Board of Directors.

		COMPLIANCE STATUS		
--	--	-------------------	--	--
