Notes to the Condensed Consolidated Interim Financial Statements

As At And For the Three-Month Period Ended 31 March 2026

(All amounts are expressed in Million US Dollars (USD) unless otherwise stated.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

Statement of Compliance

The condensed consolidated interim financial statements as at and for the three-month period ended 31 March 2026 have been prepared in accordance with IAS 34 “Interim Financial Reporting”. They do not include all of the information required for complete annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2025.

Board of Directors has approved the condensed consolidated interim financial statements as of 31 March 2026 on 29 April 2026. General Assembly and the related regulatory bodies have the authority to modify the statutory financial statements.

Basis of Preparation

The consolidated financial statements, except for some financial instruments that are stated at fair value, have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration paid in exchange for goods or services.

Functional and Reporting Currency

Functional currency

The consolidated financial statements of the Group are presented in USD, which is the functional currency of the Company. Details of the functional currencies of the subsidiaries of the Company are as follows;

<u>Subsidiaries</u>	<u>Functional currencies</u>
Turkish Technic	USD
TAFA	USD
THY Uluslararası Yatırım ve Taşımacılık A.Ş.	USD
Turkish Technology	TL
Widect	USD
TSS	TL
THY Özel Güvenlik ve Koruma Hizmetleri A.Ş.	TL
AJet	USD
TKPAY	TL
THY Ortak Sağlık ve Güvenlik Birimi Hizmetleri A.Ş.	TL
THY Gayrimenkul Yatırım Hizmetleri A.Ş.	TL
THY Spor A.Ş.	TL
TCI	USD
TSI Seats Inc.	USD

Although the currency of the country in which the Company is registered is Turkish Lira (“TL”), the Company’s functional currency is determined as USD. USD is used to a significant extent in, and has a significant impact on the operations of the Company and reflects the economic substance of the underlying events and circumstances relevant to the Company. Therefore, the Company uses USD in measuring items in its financial statements and as the functional currency. All currencies other than those selected for measuring items in the consolidated financial statements are treated as foreign currencies. Accordingly, transactions and balances not already measured in USD have been remeasured in USD in accordance with the relevant provisions of IAS 21, “the Effects of Changes in Foreign Exchange Rates”.

Except where otherwise indicated, all amounts disclosed in financial statements and notes are rounded the nearest million (USD 000,000).

Financial reporting in hyperinflationary economies

As of 31 March 2026, an adjustment has been made in accordance with the requirements of IAS 29, Financial Reporting in Hyperinflationary Economies (“IAS29”) regarding the changes in the general purchasing power of TL. In terms of IAS 29 it is required that financial statements prepared in the currency in circulation in the economy with hyperinflation should be expressed in the unit of measurement valid at the balance sheet date, and the amounts in comparative periods should be prepared in the same way. One of the requirements for the application of IAS 29 is a three-year cumulative inflation rate approaching or exceeding 100%. The correction was made using the correction factor obtained from the Consumer Price Index in Türkiye published by Turkish Statistical Institute (“TUIK”). The indices and adjustment factors used to prepare the consolidated financial statements are as follows:

<u>Date</u>	<u>Index (*)</u>	<u>Adjustment Factor</u>	<u>Compound Inflation Rate</u>
31 March 2026	121.47	1.00000	205%
31 December 2025	110.39	1.10037	211%
31 March 2025	92.82	1.30866	250%

(*) As of 2026, the base year for index series has been updated to 2025=100 by Türkiye İstatistik Kurumu. Accordingly, index values previously reported using different reference years and scaling methodologies have been restated to align with the new base year. To ensure comparability, historical data have also been retrospectively adjusted on a consistent 2025=100 basis.

IAS 29 is applicable for the subsidiaries whose functional currencies are TL. These subsidiaries are Turkish Technology, TSS, THY Özel Güvenlik ve Koruma Hizmetleri A.Ş., TKPAY, THY Ortak Sağlık ve Güvenlik Birimi Hizmetleri A.Ş., THY Gayrimenkul Yatırım Hizmetleri A.Ş., and THY Spor A.Ş.

The main procedures for the above-mentioned restatement are as follows:

- Financial statements prepared in the currency of a hyperinflationary economy are stated in terms of the measuring unit current at the balance sheet date, and corresponding figures for previous periods are restated in the same terms.
- Monetary assets and liabilities that are carried at amounts current at the balance sheet date are not restated because they are already expressed in terms of the monetary unit current at the balance sheet date.
- Non-monetary assets and liabilities that are not carried at amounts current at the balance sheet date and components of equity are restated by applying the relevant monthly conversion factors.
- All items in the statement of profit or loss are restated by applying the relevant conversion factors.
- All items in the balance sheet, statement of profit or loss and other comprehensive income of the subsidiaries whose functional currencies are TL are translated into USD using the closing rate as of 31 March 2026. The combined effect of the restating in accordance with IAS 29 and translation in accordance with IAS 21 is presented as currency translation reserve in other comprehensive income.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Basis of Consolidation

- a. The consolidated financial statements include the accounts of the parent company, THY, its subsidiaries and its joint ventures on the basis set out in sections (b) below. Financial statements of the subsidiaries and joint ventures are adjusted where applicable in order to apply the same accounting policies. All transactions, balances, profit and loss within the Group are eliminated during consolidation.
- b. The Group has nine joint ventures as disclosed in Note: 1. These joint ventures are economical activities whereby decisions about strategic finance and operating policy are jointly made by the consensus of the Group and other investors. The joint ventures are jointly controlled by the Group and other shareholders and are accounted for using the equity method. Under the equity method, joint ventures are initially recognized at cost and adjusted to recognize any distributions received, impairments in the joint ventures and the Group's share of the profit or loss after the date of acquisition. Joint ventures' losses that exceed the Group's share are not recognized, unless the Group has incurred legal or constructive obligations on behalf of the joint venture.
- c. The non-controlling share in the assets and results of subsidiaries for the year are separately classified as "non-controlling interest" in the consolidated statements of financial position and consolidated statements of profit or loss.

2.2 Changes and Errors in Accounting Policies Estimates

The significant estimates and assumptions used in the preparation of these consolidated financial statements as at and for the period ended 31 March 2026 are consistent with those used in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2025.

2.3 Summary of Significant Accounting Policies

2.4 New and Revised Standards and Interpretations

a) Standards, amendments, and interpretations applicable as of 31 March 2026:

Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments; effective from annual reporting periods beginning on or after 1 January 2026. These amendments:

- clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
- make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

Annual improvements to IFRS – Volume 11; effective from annual periods beginning on or after 1 January 2026. Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 list of amended Accounting Standard and accompanying guidance include the following:

- IFRS 1 First-time Adoption of International Financial Reporting Standards;
- IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
- IFRS 9 Financial Instruments;
- IFRS 10 Consolidated Financial Statements; and
- IAS 7 Statement of Cash Flows.

Amendment to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity; effective from annual periods beginning on or after 1 January 2026. These amendments change the 'own use' and hedge accounting requirements of IFRS 9 and include targeted disclosure requirements to IFRS 7. These amendments apply only to contracts that expose an entity to variability in the underlying amount of electricity because the source of its generation depends on uncontrollable natural conditions (such as the weather). These are described as 'contracts referencing nature-dependent electricity'.

The Group continues its efforts to comply with these standards.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.4 New and Revised Standards and Interpretations (cont'd)

b) Standards, amendments, and interpretations that are issued but not effective as of 31 March 2026:

IFRS 19 Subsidiaries without Public Accountability: Disclosures; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This new standard and amendments works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:

- it does not have public accountability; and
- it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.

Amendment to IFRS 19 Subsidiaries without Public Accountability: Disclosures; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). In developing the reduced disclosure requirements in IFRS 19, the IASB considered the disclosure requirements in other IFRS Accounting Standards as at 28 February 2021. When IFRS 19 was issued, it did not contain reduced versions of any disclosure requirements that were added or amended after that date. Subsequently, the IASB issued these amendments to help eligible subsidiaries by reducing disclosure requirements for Standards and amendments issued between February 2021 and May 2024, specifically:

- IFRS 18, 'Presentation and Disclosure in Financial Statements';
- Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7);
- International Tax Reform—Pillar Two Model Rules (Amendments to IAS 12);
- Lack of Exchangeability (Amendments to IAS 21); and
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7).

Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). These narrow-scope amendments specify the translation procedures for an entity whose presentation currency is that of a hyperinflationary economy. The entity applies the amendments if:

- its functional currency is that of a non-hyperinflationary economy and it is translating its results and financial position into the currency of a hyperinflationary economy; or
- it is translating into the currency of a hyperinflationary economy the results and financial position of a foreign operation whose functional currency is that of a non-hyperinflationary economy.

The amendments aim to improve the usefulness of the resulting information in a cost-effective manner and reduce diversity in practice.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.4 New and Revised Standards and Interpretations (cont'd)

b) Standards, amendments, and interpretations that are issued but not effective as of 31 March 2026 (cont'd):

IFRS 18 Presentation and Disclosure in Financial Statements; effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

To comply with paragraph 30 of IAS 8, it is expected that March year-end disclosures should about:

- the nature of the changes,
- the fact that IFRS 18 application is required for annual periods beginning on or after 1 January 2027,
- the planned adoption date, and
- either:
 - known or reasonably estimable information relevant to assessing the possible impact that application of IFRS 18 will have on the entity's financial statements in the period of initial application; or
 - if that impact is not known or reasonably estimable, a statement to that effect.

When preparing disclosures related to the adoption of IFRS 18 to comply with paragraph 30 of IAS 8, entities should consider the following principles:

i. Disclosures are expected to become increasingly detailed as entities' implementation process progresses toward 2027.

The level of detail that an entity includes in its disclosures will depend on the progress of its implementation activities, including those related to internal controls. For the year ending 31 March 2026, entities that have yet to make significant progress in implementation might only disclose that they are actively assessing the impact of IFRS 18 and that more comprehensive disclosures cannot reasonably be provided.

ii. Where appropriate and reliable, consider including quantitative information.

It may be appropriate to disclose preliminary figures, when the company has an appropriate and reliable basis for making such disclosures and provides clear explanations regarding their provisional nature. For example, an entity might quantify the effects on profit and loss subtotals. If the quantitative impact is not reasonably estimable, a statement to that effect should be included. An entity may disclose known and reasonably quantifiable impacts, but it is not expected to early provide IFRS 18 disclosures, such as an MPM reconciliation, before the application date.

iii. Consider alignment with other public communications.

If management has publicly detailed anticipated impacts, such as in an investor presentation, the IAS 8 financial statement disclosures should be consistent with these communications.

Disclosures should be based on the information available through the date of issuance of the financial statements, not only the end of the reporting period.

The effects of the above-mentioned changes on the financial position and performance of the Group are being assessed.

2.5 Determination of Fair Values

Various accounting policies and explanations of the Group necessitate to determine the fair value of both financial and non-financial assets and liabilities. If applicable, additional informations about assumptions used for the determination of fair value are presented in notes particular to assets and liabilities.

Evaluation methods in terms of levels are described as follows:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets and obligations.
- Level 2: Variables obtained directly (via prices) or indirectly (by deriving from prices) which are observable for similar assets and liabilities other than quoted prices mentioned in Level 1.
- Level 3: Variables, which are not related to observable market variable for assets and liabilities (unobservable variables).

2.6 Going Concern

The Group has prepared its consolidated financial statements with the assumption on the Group's ability to continue its operations in the foreseeable future as a going concern.

2.7 Other

The impacts of the conflicts that began in the Middle East in March 2026 on fuel prices, the Group's and Middle East-based airline's operations in the region are being closely monitored, and necessary actions are being taken.

16. EMPLOYEE BENEFITS

Provisions for retirement pay liability as of 31 March 2026, and 31 December 2025 are comprised of the following:

	31 March 2026	31 December 2025
Provision for retirement pay liability	<u>281</u>	<u>282</u>

Under Labor Law, effective in Türkiye, it is an obligation to make legal retirement pay to employees whose employment is terminated in certain ways.

Retirement pay liability is subject to a limitation of monthly salaries by USD 1,460 (full) (equivalent of TL 64,949 (full)) as of 31 March 2026. (31 December 2025: USD 1,256 (full) equivalent to TL 53,920 (full)).

Retirement pay liability is not subject to any funding legally. Provisions for retirement pay liability are calculated by estimating the present value of probable liability that will arise due to the retirement of employees.

IAS 19 (“Employee Benefits”) stipulates the progress of the Group’s liabilities by use of actuarial valuation methods under defined benefit plans. Actuarial assumptions used in calculation of total liabilities are described as follows:

The critical assumption is that the maximum liability amount increases in accordance with the inflation rate for every service year. Provisions in the accompanying consolidated financial statements as of 31 March 2026 are calculated by estimating the present value of liabilities due to the retirement of employees. Provisions in the relevant balance sheet dates are calculated with the assumptions of 24.61% annual inflation rate (31 December 2025: 24.61%) and 29.82% interest rate (31 December 2025: 29.82%). Estimated amount of non-paid retirement pay retained in the Group due to voluntary leaves is assumed as 2.17% (31 December 2025: 2.33%). Ceiling for retirement pay is revised semi-annually. Ceiling amount of USD 1,460 (full) (equivalent to TL 64,949 (full)) which has been in effect since 1 January 2026, is used in the calculation of the Group’s provision for retirement pay liability.

Movement in the provisions for retirement pay liability is as follows:

	1 January - 31 March 2026	1 January - 31 March 2025
Provision at the beginning of the period	282	247

(*) On 21.05.2025, in accordance with the Capital Market Board's Communiqué II-22.1 on treasury shares, in order to contribute to the fair price formation of Company's share, Board of Directors of THY A.O. decided to launch a Share Buy-back program covering 3 calendar years and to allocate a maximum of USD 480 (TL 9,000) for treasury shares from Company's cash portfolio, while limiting the number of shares that may be subject to buy-back be at most 1.7% of the issued share capital. According to share buy-back program, company purchased 7,640,244 shares with the amount of USD 54 as of 31 March 2026.

(**) Inflation adjustment on share capital represents inflation uplift of historical capital payments based on inflation indices until 31 December 2004.

As of 31 March 2026, the Registered paid-in share capital of the Company comprised 137,999,999,999 Class A shares and 1 Class C share, all with a par value of Kr 1 each. The Class C share belongs to the Republic of Türkiye Treasury and Finance Ministry Privatization Administration and has the following privileges:

- Articles of Association 7: Positive vote of the board member representing class C share with the Board's approval is necessary for transfer of shares issued to the name.
- Articles of Association 10: The Board of Directors consists of nine members of which one member has to be nominated by the class C shareholder and the other eight members must be elected by class A shareholders.
- Articles of Association 14: The following decisions of the Board of Directors are subject to the positive vote of the class C Shareholder:
 - a) Decisions that will negatively affect the Group's mission, Defined in Article 3.1. of the Articles of Association,
 - b) Suggesting change in the Articles of Association at General Assembly,

Restricted Profit Reserves

Turkish Commercial Code (TCC) stipulates that the general legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. Additionally, not limited with 20% of paid-in share capital, the general legal reserve is appropriated at the rate of 10% per annum of all cash dividends in excess of 5% of the paid-in share capital. Under TCC, the legal reserves can only be used to offset losses, to sustain business when conditions worsen, to prevent unemployment and are not available for any other usage unless they exceed 50% of paid-in share capital.

In accordance with Article 520 of the Turkish Commercial Code, the Group is required to allocate a reserve fund in an amount that covers the purchase value for its own shares purchased.

Foreign Currency Translation Differences

Currency translation differences under equity arise from Group's joint ventures, provisions for unused vacation, legal claims and retirement pay liability accounted under the equity method, which have functional currencies other than USD.

Distribution of Dividends

Listed companies distribute dividend in accordance with the Communiqué No. II-19.1 issued by the CMB, which is effective from 1 February 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly in accordance with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with their dividend policy or articles of associations. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on the financial statements of the Group.

Actuarial Differences on Defined Benefit Plans

According to IAS 19, all actuarial differences are recognized in other comprehensive income.

Gains/Losses from Cash Flow Hedges

Hedge gain/losses against cash flow risk arise from the accounting of the changes in the fair values of effective derivative financial instruments designated against financial risks of future cash flows under equity. Total of deferred gain/loss arising from hedging against financial risk is accounted in profit or loss when the hedged item impacts profit or loss.

As of 2026, lease liabilities and investment borrowings in Japanese Yen, Swiss Franc, Chinese Yuan and Euro for investment financing are designated as cash flow hedge against exchange rate risk due to highly probable future same foreign currency revenues. Group's revenue denominated in Euro, Chinese Yuan and Swiss Franc fully covered borrowings of such foreign currency, while Japanese Yen revenue covered %38 of borrowings. In this context, exchange differences arising from such these loans repayment are taken to equity and recognized in other comprehensive income.

25. TAX ASSETS AND LIABILITIES (cont'd)

Corporate Tax

The general corporate income tax rate is %25 in Türkiye, the corporate tax rate is applied with a 5-point discount on the earnings of exporting institutions derived exclusively from exports. The corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

Furthermore, Article 32/C titled “Domestic minimum corporate tax” has been added to the Corporate Tax Law with Article 36 of Law No. 7524. According to this regulation regarding the application of the domestic minimum corporate tax, the corporate tax calculated within the framework of Articles 32 and 32/A, will not be less than 10% of the corporate income before the application of discounts and exemptions.

The said regulation entered into force on the date of its publication to be applied to corporate earnings for the taxation period of 2026. Corporate Tax General Communiqué Serial No. 23 was published in the Official Gazette dated 28.09.2024 and numbered 32676.

Deferred Tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes, which are given below.

In Türkiye, the companies can not declare a consolidated tax return; therefore, subsidiaries with deferred tax assets were not netted off against subsidiaries with deferred tax liabilities position and they are disclosed separately.

(**) The related amount includes the effects of lease liabilities and right of use assets on deferred tax assets and liabilities.

Pursuant to Law No. 7571 published in the Official Gazette dated 25 December 2025, amendments were made to the Tax Procedure Law ("TPL"). In accordance with these amendments, statutory tax financial statements will not be subject to inflation adjustment for the 2026 fiscal year, including interim tax periods, as well as for the 2026 and 2027 fiscal years.

Furthermore, during these periods in which inflation accounting is not applied, it will be permissible to revalue depreciable assets in accordance with Article 298, paragraph (Ç) of the TPL.

Accordingly, the Group has elected to apply the revaluation practice in the current period, and property, plant and equipment have been carried at their revalued amounts. The deferred tax amount under Article 298 (Ç) for the fiscal year 2026 has been calculated based on these revalued amounts.

26. EARNINGS PER SHARE

Earnings per share disclosed in the consolidated profit or loss and other comprehensive income is determined by dividing the net income by the weighted average number of shares that have been outstanding during the relevant period.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares (“bonus interest”) to existing shareholders from retained earnings. For the purpose of earnings per share computations, such bonus shares are regarded as issued shares. Accordingly, the weighted average number of shares outstanding during the years has been adjusted in respect of bonus shares issued without a corresponding change in resources, by giving them retroactive effect for the year in which they were issued and for each earlier year.

28. NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS (cont'd)

Foreign currency risk management (cont'd)

The Group is exposed to foreign exchange risk primarily from TL, EURO, JPY and CHF. The following table details the Group's sensitivity to a 10% increase and decrease in TL, EURO, JPY and CHF against USD. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss with a same effect on equity. The Group accounted investment loans and aircraft financial liabilities in scope of cash flow hedge accounting and foreign exchange income/expense arising from these loans and liabilities are recognized in equity. 10% increase and decrease effect of foreign exchange rates are calculated with the same method and the calculated foreign exchange gains/losses are presented as hedged portion in the foreign exchange sensitivity table. Furthermore, the hedged portion of foreign exchange gains/losses via forwards and cross currency swap transactions is classified as the amount hedged against USD in the statement of exchange rate sensitivity analysis.
